Work Experience

RAAHEE| Frontend Web Developer

April'21-June'21

- It is a Startup company which **connects you with professionals like psychologists and counselors** through the Raahee website and app.
- **Coordinated** with a team of 20+ members during Covid to launch a full revamp of the company's website by **increasing performance by 20% and removing all bugs** using **React Js**.
- Added numerous features to create a more **cohesive platform** for both patients and doctors to connect

[Ayurved Proctology Association](#) | Freelancer

Dec'20 - Feb'21

- Ayurved Proctology Association is a Mumbai-based Ayurved Hospital. The website aims to provide the association with an online presence and help gain members.
- The website is built in **Django** along with **HTML, CSS, and Bootstrap**.
- Designed a **login portal** for the client which helps them access all the necessary resources and videos by making **API calls** that display the relevant data from the Backend so that proper functionality is given.
- **Evolved** and **expanded** the company's goals and visions by keeping track of its exclusive resources and events while **maintaining a record** of its members using the **MySQL database**.

Projects

[Research Portal](#)

Aug'20-Present

- **Designed** and **developed the front end** of the portal that publicizes the research projects so that interested students from all over college can connect with the professors in charge.
- The frontend of the portal is made using **React Js** and the backend stack used is **Django with MySQL database**.
- The website is in its testing stage and being accepted by the college.

[Online IDE](#)

Nov'20

- Developed a **convenient, handy Ace-react code editor** where inputs can be given and output will be processed and displayed.
- Uses **JDoodle API** and supports 3 renowned languages **C, C++, and Java** with some basic codes implemented already.

[BREAKING BAD CHARACTER INTERFACE WEB APP](#)

Dec'20

- Developed an **interactive GUI** where **Breaking Bad character's personality** and information can be viewed.
- Used **React Js, HTML, CSS, and Breaking Bad API** to implement the searching function.

Positions of Responsibility

Indian Society Of Technical Education (ISTE) | Treasurer and Web Development Head

Jun'21 - Present

- **Provided web development expertise and leadership** by **mentoring** 30+ students at a web development workshop.

ACM Manipal | Managing Committee Member

Jun'20 - Present

- **Formulated a more efficient workflow** for my team leader by improving documentation and submission procedures **reducing time wastage by roughly 50%**.
